Val Maira, between Piedmont and France - Italy

Val Maira, between Piedmont and France

8 days, price from **€ 1119**

Villages suspended between the woods and the sky, guarded by the mountains; holm oak and pine forests, springs of the clearest water and natural caves that water carved into the karst rock; small charming hotels and hosts as nurturing as the local cuisine - tasty and rustic, typical mountain food. If you are reading these words and thinking that this is everything your heart may desire, **Val Maira** must be singing your name in its **Occitan dialect**.

Located in the **Southern Alps** near the **French border**, Val Maira is only now becoming popular among hikers as a hiking paradise. You won't find packed walking paths, crowded ski slopes and mass tourism, but rather beautiful hamlets and a nature so untamed to be still populated with a lot of animals and - legend says - curious but benevolent gnomes.

French influence - the country which the locals used to be more in contact with, as it was easier to reach than Italy - is vivid and well perceivable in its food, language, culture. The Occitan culture makes this enchanting territory even more peculiar.
