Via Francigena: Stage 6, Lucca to Siena - Italy

Via Francigena: Stage 6, Lucca to Siena

8 days, PRICE FROM € 859

This is one of the **most appreciated sections** of the whole itinerary, and the reason is not difficult to understand: beautiful **Lucca**, with its walkable walls, towers surmounted by hanging gardens and the peculiar amphitheatre square, is definitely a great place to start your adventure.

You then continue through a **quintessential Tuscan landscape** - cypresses and hills, farmhouses and vineyards, the towers of **San Gimignano** and those of **Monteriggioni**, through enchanting riverside parks, gravel roads and quaint hamlets.

The last step? Among **Siena's** contrade and into her shell-shaped square, where the world-famous Palio takes place and where pilgrims lay to rest and celebrate the sweet success of a complete journey.

Route

Day 1 Lucca

Lucca is a town with a charming old town centre, rich in attractions: we advise you to enjoy a long walk along its **sixteenth-century walls**, admiring the surrounding view, before going to discover why Holm-oak trees grow at the top of the **Guinigi tower**. Naturally, the mystery can be revealed only by climbing the numerous steps! Restore yourselves with a snack of **Bucellato**, before visiting the splendid **Duomo**. After dinner, go and admire the elliptic square built over the ruins of the ancient **Roman amphitheatre**, now hidden by multi-coloured houses containing little restaurants and artisan shops.

Day 2 From Lucca to Altopascio by train - from Altopascio to San Miniato, 29 km

Leaving Altopascio you will walk along a splendid section of the original paved **Via Francigena**, surrounded by woods. Allow yourself to be charmed by the wild land of the **Cerbaie**, and enjoy a panoramic view of the old village of **Fucecchio** from the top of the old park with its ancient medieval tower. After crossing over the **river Arno**, you will walk along its banks towards **San Miniato**. The Seminary which gives the name to the main square will amaze you with its particular facade: enjoy it lit up, perhaps after eating a risotto dusted with the typical **white truffle**, the pride of the local area.

If you think that this stage may be too long for you too walk, don't worry: you can make it shorter by taking brief stretches by public transport.

Distance: 29 km

Elevation gain: +250/-115 m

Day 3 From San Miniato to Gambassi Terme, 24 km

A demanding leg, but one with unique beautiful scenery, awaits you. From San Miniato you will walk along an asphalted section of road, amply compensated by the following part which passes through the splendid crests of the **hills of the Val d'Elsa**: along the road you can cross the threshold of the **Pieve di Chianni**, following in the footsteps of entire generations of pilgrims. For a fitting end to the day you can enjoy a healthy bath in the hot springs of **Gambassi**, surrounded by a park of ancient trees.

Distance: 24 km

Elevation gain: +400/-220 m

Day 4 From Gambassi Terme to San Gimignano, 13,5 km

This leg of the journey, short but rich in splendid natural scenery, will lead you to **San Gimignano**, one of the most beautiful towns along the Via Francigena: you will get a foretaste of your arrival when you see the **famous towers** that make its skyline unmistakable. Do not miss the view of the medieval town and its surrounding valleys from the top of the **Torre Grossa**, or if you don't run out of energy, venture up the steps of the **Rocca di Montestaffoli**, for an even more special view. During the evening, take a quiet stroll to admire the illuminated town before enjoying a good glass of **Vernaccia** in one of the taverns of the old town centre.

Distance: 13,5 km

Elevation gain: +350/-350 m

Day 5 From San Gimignano to Colle Val d'Elsa, 12 km

From San Gimignano you will continue, up and down, through the Tuscan hills. In one point of the journey not yet well marked you will come to **Sce Martin in Fosse**, one of the halting places along the ancient route of **Sigerico**. Today's destination is **Colle Val d'Elsa**, a Tuscan village which will take you back in time, with its charming old town centre and narrow alleyways winding through the stone walls.

Distance: 12 km

Elevation gain: +287/-222 m

Day 6 From Colle Val d'Elsa to Monteriggioni, 16 km

Prepare yourselves for one of the most beautiful sections of the Via Francigena: a meditative route, along which you can admire the Pieve di Strove (unfortunately just from the outside) and stand in the quietness of the splendid **Abbadia at Isola**, another stage in the journey of the **Archbishop Sigerico**, where time stopped 1000 years ago, when he passed through. Your breath will be taken away when you see the castle of **Monteriggioni**, with its crown of towers, built on a hill in order to defend the ancient Republic of Siena. Within it, a small ancient world, with the beautiful square and small gardens where you will be able to gather your breath, before climbing up onto the walls to admire the surrounding view.

Distance: 16 km

Elevation gain: +287/-222 m

Day 7 From Monteriggioni to Siena, 20 km

From Monteriggioni you will start your walk again along the white roads of the **Sieneese countryside**, passing through the old, no longer inhabited medieval village of **Cerbaia**: you will experience the same feelings as the ancient pilgrims when you pass through **porta Camollia**, the traditional Francigena entrance to the town of **Siena**. An unforgettable way to celebrate? A plate of pici all'aglione in the illuminated **Piazza del Campo**. And don't forget the panforte!

Distance: 20 km

Elevation gain: +300/-250 m

Day 8 Siena
